

Ontario SEO Checklist 2026

AI SEO • WordPress SEO • GEO • AEO • LLM Search Optimization

This checklist is designed for businesses targeting Ontario search visibility in 2026. It helps evaluate technical SEO, WordPress SEO, local SEO, AI search readiness, Google AI Overview visibility, and conversion optimization without relying on fake case studies.

1. Technical SEO Foundation

- Check Core Web Vitals (LCP, CLS, INP).
- Validate canonical URLs.
- Fix crawl/indexation issues.
- Audit robots.txt and XML sitemap.
- Optimize internal linking.
- Compress and lazy-load images.
- Fix broken links and redirect chains.
- Ensure mobile-first responsiveness.

2. WordPress SEO Ontario

- Audit Elementor DOM size.
- Reduce plugin conflicts.
- Use schema markup validation.
- Enable caching and CDN.
- Optimize database performance.
- Use AVIF/WebP images.
- Check heading hierarchy.
- Improve page speed under 2.5s LCP.

3. Local SEO & Ontario Entity Signals

- Optimize Google Business Profile.
- Use Ontario city-specific landing pages.
- Maintain NAP consistency.

- Add Ontario city keywords naturally.
- Build entity consistency across social profiles.
- Create FAQ blocks for local intent.
- Use location schema where appropriate.

4. AI SEO / GEO / AEO

- Add direct-answer blocks.
- Structure content for AI extraction.
- Use Speakable schema for answer sections.
- Add FAQPage schema.
- Use semantic headings and entity relationships.
- Add comparison tables and pricing transparency.
- Create citation-worthy original frameworks.

5. Conversion & Trust

- Use clear CTAs.
- Add founder/reviewer profile.
- Add transparent pricing ranges.
- Add downloadable lead magnets.
- Link social profiles and brand entities.
- Ensure privacy policy exists.
- Add accessibility and focus states.

6. Ontario Content Expansion

- Create Toronto SEO page.
- Create Vaughan SEO page.
- Create WordPress SEO Ontario page.
- Create AI SEO Services Toronto page.
- Create GEO for Ontario Law Firms page.
- Create Technical WordPress SEO Vaughan page.

Important: Do not use fake reviews, fake case studies, fake ratings, or fabricated Ontario client proof. Build authority using transparent process, technical expertise, structured content, AI-ready formatting, and consistent entity signals.
